

## SPARSH

**“On your way to being a professional, it is a bonus to meet the professionals themselves. “**

Our college is a paradise for students. From giving us a strong theoretical base in education to imbibing practical knowledge in us and providing platforms to unleash our creative potential, our college is brimming with opportunities to learn or hone knowledge in diverse fields. But to add to the glory of our college, we felt it necessary to enable the students to meet the big people in different industries that they have always fancied. This idea led to the birth of **SPARSH**.

**SPARSH**, a techno - cultural club saw it's inception in the year 2014. Formed by the then Computer Science and Engineering students of Sri Jayachamarajendra College of Engineering now known as, JSS Science and Technology University, **SPARSH** was found to be hugely appreciated by students for the club's activities and it's well known **“SPARSH talks”**. **SPARSH** caters to students' desires and invites their role models to our campus. All kinds of special people ranging from singer, sportsperson, writer, actor etc., to scientist, engineer, CEO etc., are invited, all of whom have a past to share, success to celebrate, profound talents to showcase or life lessons to teach. Through SPARSH talks, students have met, talked and expressed their ideas, beliefs or fear in realising their dreams, while learning a lot from what the big people had to say about their life, struggles and many things more.

**SPARSH** has kept its promise to invite well renowned personalities to the college and has given an opportunity to the students to be a part of the talks. Through **SPARSH** talks, students are left inspired and more inclined to earn respect and success.

Through the years, **SPARSH** has invited several dignitaries, including the Chairman of ISRO, eminent actors, musicians, CA's and CEO's. Some of the most popular names that come up are :

1. Vijay Prakash
2. Avinash (RJ)
3. Aprameya Radhakrishna
4. Nischal Narayan (youngest CA)
5. Nirup Bhandari
6. Suhas Gopinath (youngest CEO)
7. Praveen Godkhindi
8. Raghu Dixit
9. Dr. Kiran Kumar (ISRO Chairman)
10. Rajesh Krishnan
11. Rakshith Shetty
12. Vilas Naik

Each and every one of the **SPARSH** talks was moving. A lot of these **SPARSH** talks saw outpour of information which was absorbed by many wide-eyed students. Some other SPARSH talks created an aura of happiness and eagerness when the stars performed. The crowd took away much more than just a life story of a famous celebrity, along with encouragement, motivation and a close view of success. Not only the students, the teachers were influenced and energised as well.

Just when **SPARSH** was in its winter years, its rebirth was meticulously planned in parallel for the greater good; And thus, **SPARSH** bounced back to life in the later part of this year, and is in the springtime of its life.

We will be inviting distinguished personalities. The notables do not wish to be payed for the talk, but we take charge of their travel and hospitality. Everyone has a story to tell, and we yearn to listen to them. We, the members of the **SPARSH** community, have and will put our maximum efforts to bring forward the stars out on the stage and let them speak out their story, and change lives.

Today, **SPARSH** is functional in all its grandeur. We hope to have a lot of people who have mastered in their corresponding domains, right in our college in the coming days, to make our thoughts, dreams, goals or lives a teeny bit rosier.

**“ SPARSH “**
